Unity Scientific, Announces the Appointment of Bob Schumann as Director of Product Management

Brookfield, CT, February 6, 2013 – Unity Scientific announces the appointment of Bob Schumann as Director of Product Management and ATM Manager. As a senior member of the Marketing/ R&E team, his responsibilities include working with Marketing, R&E, Business Unit Managers, ATMs, Production and Unity's Senior Management Team to specify, launch, and support new and existing product lines.

Bob has a B.S. in Biology from the University of Iowa and spent the early part of his career at a biochemistry laboratory in Pioneer Hi-Bred International. In this position, Bob performed many analytical assays including oil quality and amino acid analyses and began the NIR and NIT programs for grain and forage quality.

In 1997, Bob joined FOSS Analytical in product management roles for applications, hardware and software projects as well as global key account support. Bob later transferred to FOSS North America, as a Technical Manager focusing on networking, key account support and technical liaison with their headquarters in Denmark.

Bob lives in the greater Cincinnati area with his wife Johanna, three children and a dog.

Jerry Workman, Ph.D., as Executive Vice President of Engineering, states, *"We are very excited to have Bob join our talented team, to help us more effectively supply the types and quality of products that our customers expect, with the feature set they would like to have. Bob's vast experience will support our efforts to provide the most advanced and easiest to use analytical solutions to our customers. Bob's extensive background in NIR has earned him a fine reputation as a knowledgeable, competent, and dedicated technologist. We are even more energized about the future of Unity Scientific products with Bob directing the product management role."*

Unity Scientific is a global leader in the manufacturing and sales on Near Infrared instrumentation and Wet Chemistry analyzers. Over 2,500 NIR spectrometers have been installed worldwide along with over 6,000 wet chemistry analyzers. The corporate headquarters including engineering and production are located in Brookfield, Connecticut (one hour from New York City). The European headquarters is located in Rome, Italy with corporate offices in Paris, Germany and Sydney, Australia.
